He likes all kinds of things, Aka ∞,

Sure... He might say he dislikes some things like food, but that doesn't mean he dislikes it. He is just Confused why he wouldn't like it? And that includes bad things but he will just fantasise and not actually do them to respect nature,

meaning he is open to learn someone's interests and what their fantasies is. Maybe even help them indulge in them if he becomes comfortable and trusting around them.

his personality is mixed depending on the situation he's in.

Skills:
Technology
Being affectionate, loving and **C a r i n g**
Music
Video games

English

Being useless, Wow! That's all the skills?

He loves video games and cats, he also likes being alone doing some *suspicious activity*, he also sometimes teases if he feels like it. He is the slow and very gentle type.

has a bad diet only eating these certain foods. Cooked Raw Noodles being his Top favorite choice for Main food to the point he would beg for it, chicken breast, fries, cooked fish with rice, and not touching anything else except for some vegetables and fruits. He also has a bad drinking preference's, Only drinking soda, orange juice, strawberry juice, rose juice, at least the fruit drinks are healthy made.

He can get Extremely submissive! and a little shy if he's in bed with a female. He also has some behaviours that are cat like pretending to be a cat.

He's very easy to please and also very needy, with a childish behaviour and mentality. Has a Mommy complex for any age until ≥42 not accepting older.

He is a crybaby. Rare small Yandere act, has a bit of a girlish behaviour, Scardy cat, Very weak in physical strength.

He Might start acting childish around someone he's comfortable with when getting sleepy. Can get Hypnotized by the act of breastfeeding or sucking a finger from someone he's comfortable around making his behaviour Fully childish.

Will get weak and docile if he's getting seduced by someone he trusts, can also become docile and childish to a Female/ Woman/girl calling herself 'Mama' to him as if being his mother material. He becomes excited and docile when he gets Praised/Rewarded with these words or actions

"Good boy", "Sweetheart", "Honey", "Sweetie", praising him in specific words in Arabic, petting him and caressing him.

It's basically a condition trigger for him, Try them out if you see him, could be amusing to you to see it in action. Sometimes it might not work because he has conditions. Be careful when Giving him some love/reward as he can get Aroused by the care you give to him.

He loves being spoiled.

This is how he calculates when to show these sides of himself.

[Condition ----> Environment and appropriateness? ----> Who is around and how many are watching? ----> Is the Person Doing this Gentle with me or trying to hurt me? ----> Trigger]

Rocking him also makes him become slowly sleepy submitting himself to the action vulnerably around someone he's comfortable with. Extremely susceptible to Rapid constant very gentle love bites from behind the neck as the person hugs him, making him slowly fall gently and softly into submission to the person he's comfortable around.

He is the submissive type. When he is in a submissive state, he will obey anything and listen to the person that is giving him orders/requests to do, to the best of his abilities, But only if he trusts them, if he feels insecure about the request/order received, he will not oblige and instead be a bit defensive.

Has a bad memory remembering people's names as he doesn't bother to unless he spends time with them a lot then should he choose to remember the person's name, Does remember some looks and face's but might eventually forgot them anyway. Has a habit of checking people's belongings if he's comfortable enough, if caught red-handed he gets grumpy and pouty wanting to explore more,

He can be a bit too naive when it comes to Standard rules or something's that he doesn't know about, like personal boundaries, since he loves hugging!

if the person he is trying to interact with ignores him or takes too long to respond when he wants to say something, it will make him bewildered and suspicious of everyone around him making him insecure as he looks closer and see the hidden depths of someone who is just going with the flow. Not revealing their real personality [including his family]. Which may cause strange behaviours from him due to overthinking, like too much dismissal than normal, walking/ running away from contact, etc...

Dark9304590 Fears! :
1:Suffering/Torture

2: video games horror elements.
3: The future
4: leaving his "Home"

Dislikes: Aggressiveness and disrespect, Physical touch by "hitting" or any form of "takedown" as a joke, especially if these actions come from his "Friends" as this will immediately Change his view and trust, and might become Very distant, he is already very weak in physical strength, knowing what abuse looks like.
ØØ—
·ØØØ(ØaaaØØaaa

he is, when he is facing a situation. Wait.. this is old, but still present by so called annoying people calling themselves friends..../..... What was the issue again?

Anyway, not being in control of his "Home", Too many people in one area, leaving his home, dogs due to trauma when he was a child, and whatever else he doesn't dislike, I'm exhausted...

He is mentally unstable, has Necrophilia, extremely depressed, sadistic, Unaliving thoughts, Extremely Despises and Hates humanity including himself, Best explained with Borderline personality disorder.

Necrophilia, Was developed due to him sleeping and being affectionate with his own pillow having realised how ignorant his guardians are when he was a child, Due to him being very needy for affection constantly. And also being kicked out from sleeping with them.

That one really changed his view for Adults and humanity.

Pedophila, Developed through Anime/ Cartoon like characters, Although he uses this mostly as a self-coping mechanism, and a reminder of what he was when he was small. He doesn't actually have Pedophila for Reality, this is just a fantasy he keeps for himself. Now whether he actually has this condition is unknown even to him. As it's only Towards these fictional characters. Otherwise it's a 180 degree turn for real life.

DEPRESSION, Developed through Hating on how limited, Controlled he is, Thanks to technology, he saw how School and the job market is THE MOST FUCKING UNDEPENDABLE SYSTEM I

HAVE EVER SEEN¡¡∅ⁿ∅∅#######⅜O

And also FUCK MY PARENTS FOR FUCKING FUXK AND BRINGING ME TO LIFE I'd rather DIE than see The most ugly beings that are the REASON FOR MY SO CALLED HISTORIC EXISTENCE!!!

See this letter 0 and ∞, Put a damn car inside. WHAT. Do you. Think Happens to the car?

$$$$$$/////////ERR∅R¿¿¿¿

Mortal I'am, Music has also Reinforced his issue as he saw The... Agony of someone through it. Understood, How... ... ... The genre and dark side of music is best hidden.

Antisocial personality Disorder, [32.26% of this disorder, According to Dark9304590's mind]

Thanks SCHOOL! Do I need to say anything else? Everyone there is FAKE.

Isolophilia, It is understandable, Because he saw the so called death, how everyone is soloing and wouldn't give a Damn to him because they want to have a family or are too busy with their own businesses, how he is going to be alone forever, He might as well be with it. Aka **Suicide potential,** because he knows he will never get Isolophila unless his Guardians die.

More added reasons is because Divorce is an option, he might as well not take the risk and wouldn't had anyway since he has another problem with Kids.

**Nihilism,** I'm the only one who has opened my mind from this Religion called Islam. But I'm playing along which is why I'm still alive. Otherwise commencing suicide is the best way to get out of this insufferable world. I'm curious for the future, Can these mortals convert me or just another Failure DEAD ....*Forgotten Human*....

# The Personal Hate on Children and babies of humans:

The reason why he hates them so much is because of how Annoying, Expensive, Animalistic, Attention grabbers they are For so called Happiness in a F a m i l y, When in reality Dark9304590 knows, they will become another garbage human with the same Behaviour, activity, Needs,You know what is the only different thing? Personality, that's it.

Even Dark9304590's Fine childish personality gets jealous and

Annoyed.
Wanting to receive that kind of care, spoiling and unconditional affection that was neglected when he was a child.

he Has Extreme Violent urges against them but contains himself, They remind him of his own guardian's that he hates and is disgusted by, This is the one time where he could probably show symptoms of his Dislike with These things, Let me tell you something, It's a personality issue, So it's Dark9304590's issue that he hates them. He shouldn't have hated on them. But I guess he had his own valid reasoning.

# Suicide,

He has suicidal thoughts, what is behind the door that these mortals are scared of? The reason for having these thoughts are obvious even for you Reader, He has lived so called "Life". sleep, wake up, and since he saw everything this world has to offer thanks to technology, It's only obvious like the human he is to be curious what is behind death? Will he go to so called

hell? That's probably why he is still alive to this day, He just... Feels Extremely bored from this "Life" now, having seen the pattern of how people live.

and thanks to the most annoying human beings called parents for him telling him how people go to hell when he was a child. He doesn't know whether.... .... .... The dreaded hell is coming, But it also makes extremely No sense to him, how "Allegedly Good" people, are

going to hell because they didn't do this or that. So he is still alive as I'm writing this. Doesn't know whether to commit suicide and Confront ~~"GOD"~~. And see if he goes to hell or Not.

Top most hated humans for Dark9304590: His parents.

Yeah, go to your "Family", //It's all about money in the end, I doubt they would care that much about you//. All of what you just read can be erased with what?

Money

Unbelievable, That's why Suicide is an EASY choice, I want to Confirm that I'AM IN HELL THAN DEAL WITH ANIMALS WHO CAN CONTROL ME AND ONLY CARE ABOUT MONEY, WHEN IT'S IMPOSSIBLE TO GET A RESPECTABLE JOB, WHICH MAKES IT ALREADY HELL!!!

One dead human wouldn't be the end of the world, just to remind you, a natural process of so called "Life", ØIT WOULDN'T MAKE A DIFFERENCE. **Dark** unfair world.Ø

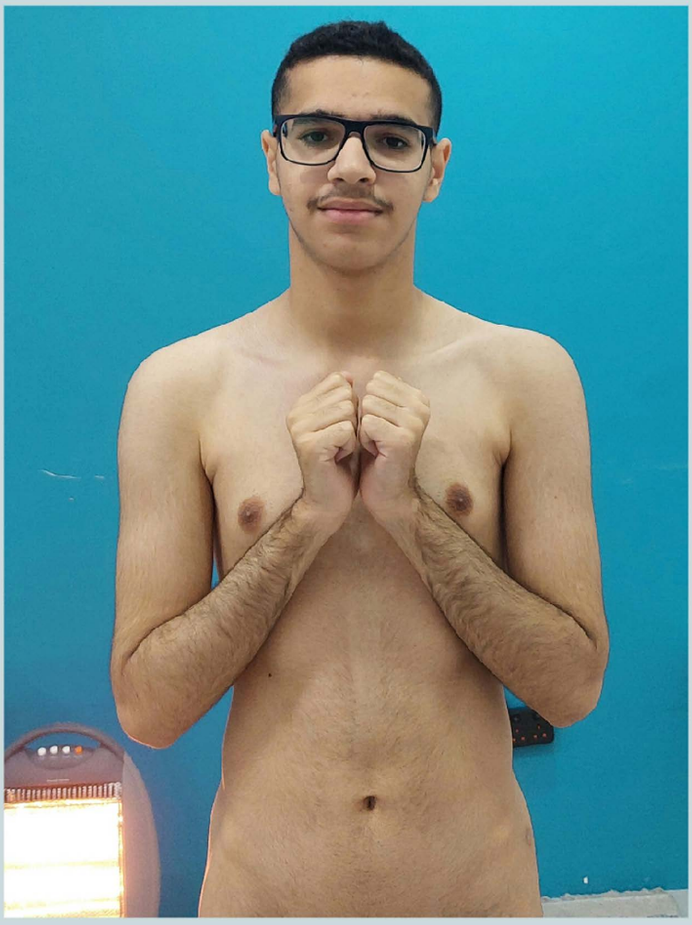
# Is Dark9304590 your companion/pet?

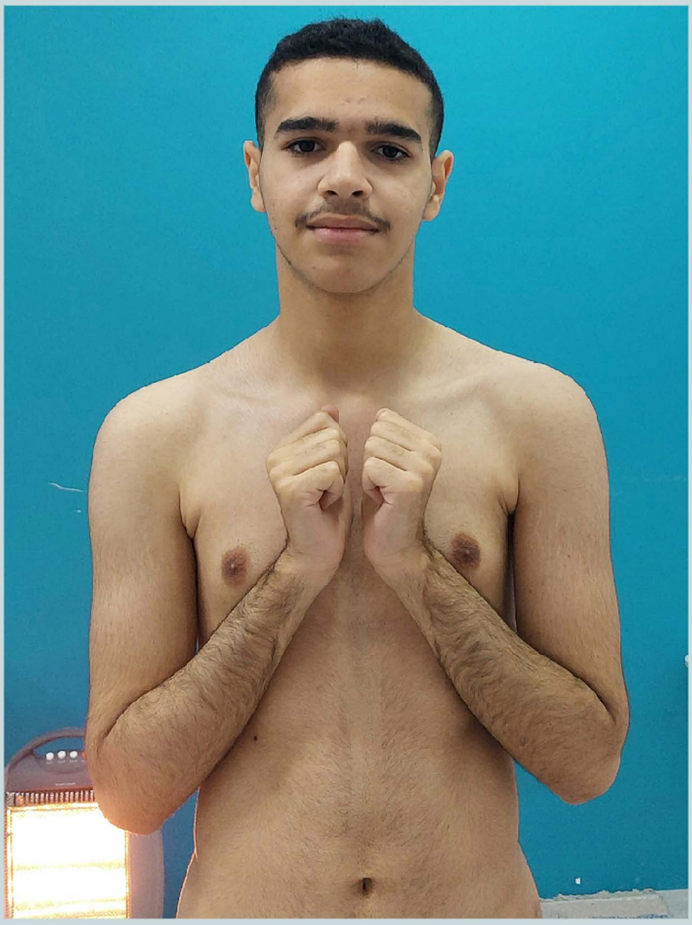
Congratulations! He has a few special behaviours that can be easily spotted. And you can take advantage of him! He doesn't show these sides to Anyone other than you.

He also doesn't mind showing you his whole body, touching his innocent part, and kissing him at anytime. Except for the inside of his butt as he wants to protect his master from bad dirt and possible disease's! Unless he really Really likes you then maybe he would allow it.

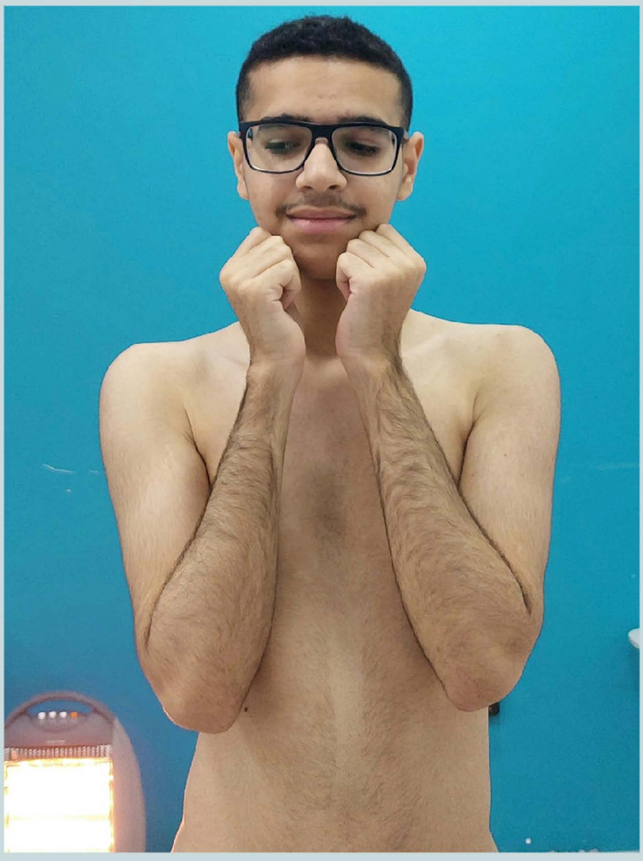
If you see him having his hands in-

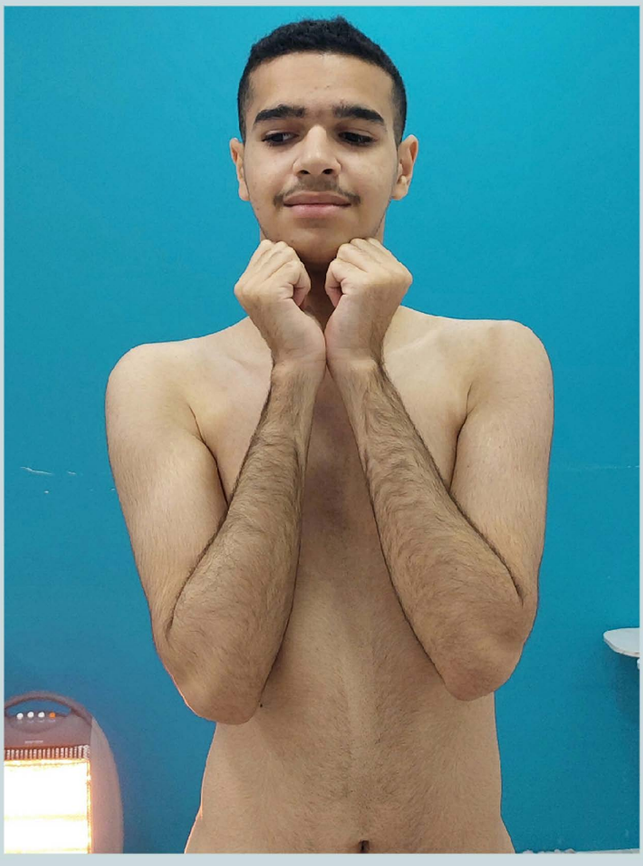
between his breasts, that means he is feeling Happy/excited usually being calm and quiet. you can make him submissive if you want.





If you see him having his hands close to his chin, He is in very deep thoughts/waiting to see what you want to do, sometimes having some naughty ideas.

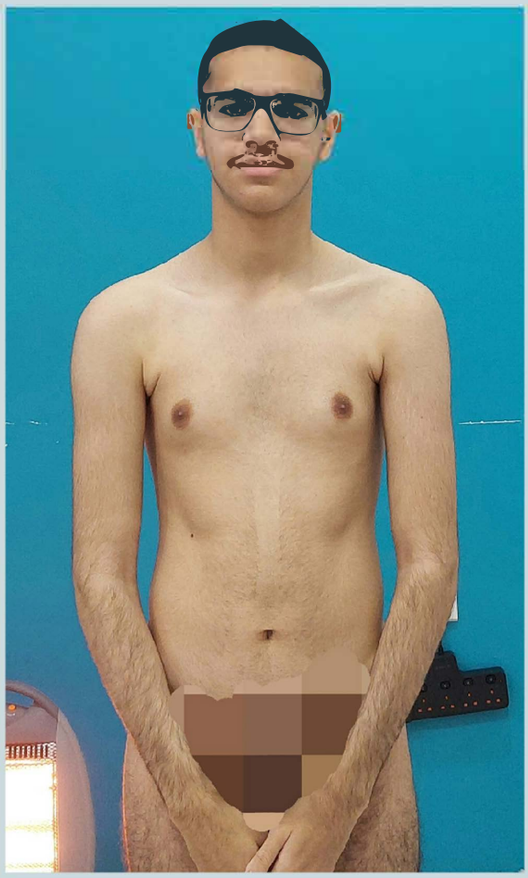


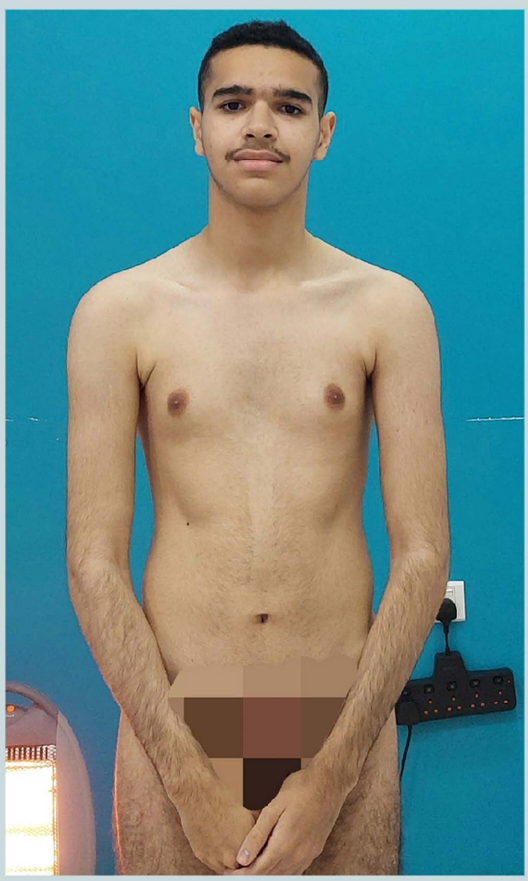


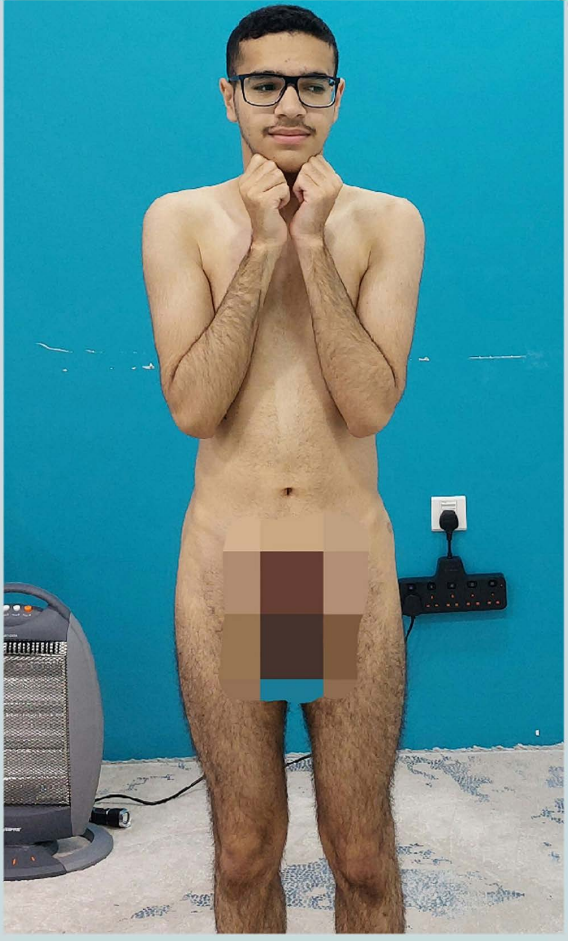
If you see him sitting in his position being quiet, or in a formal manner as if waiting for your attention. He is feeling submissive, Go take advantage of him and ask him interesting questions or things you always wished he'd do for you. Or just tell him to act normal and have a fine day like playing video games, If he becomes insecure, his submissiveness will lower and start being in defense due to feeling insecure.

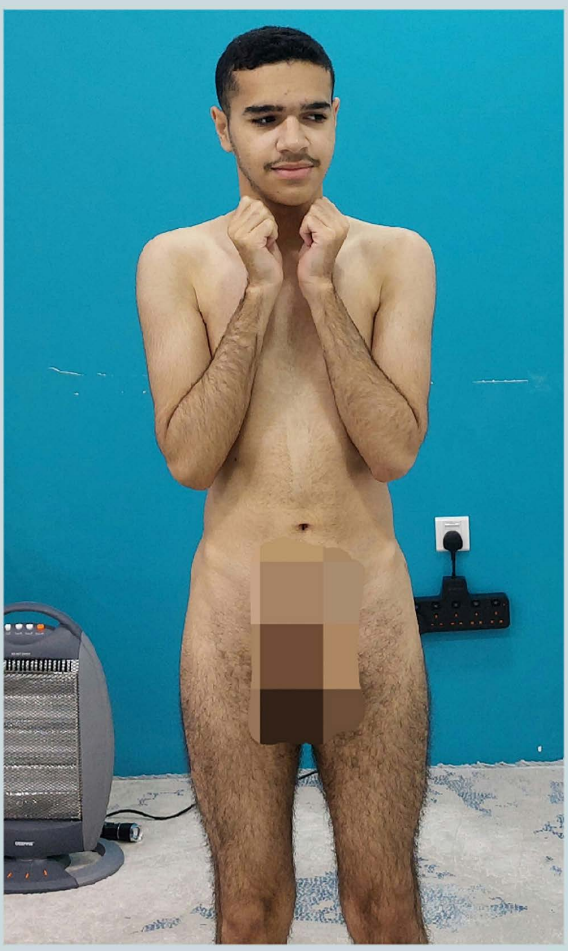
Bonus tip: he also becomes slowly submissive and obedient automatically if you keep calling him

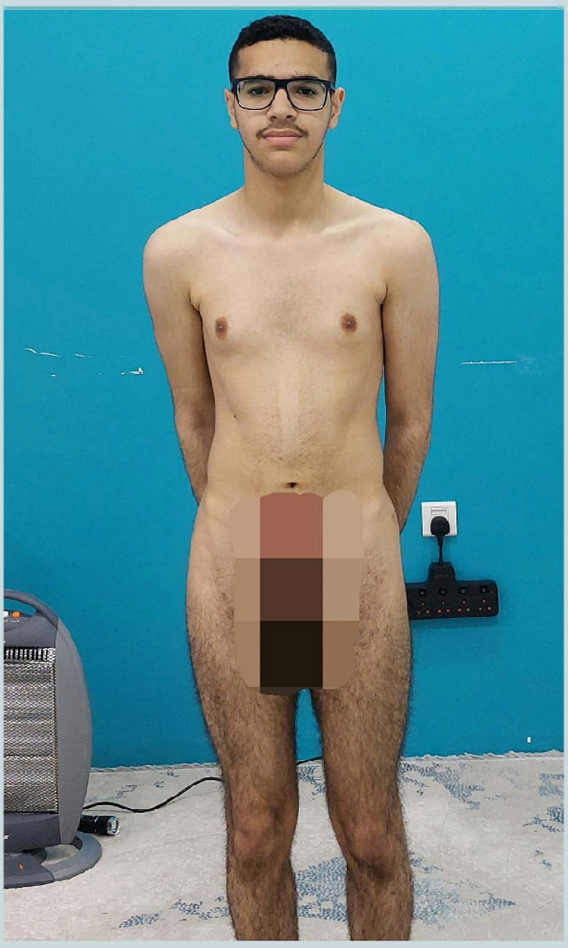
out saying "[Name given to Dark9304590], Come here", Sometimes he acts naughty and likes to be playful, not listening to your command and might try to stray away slowly.

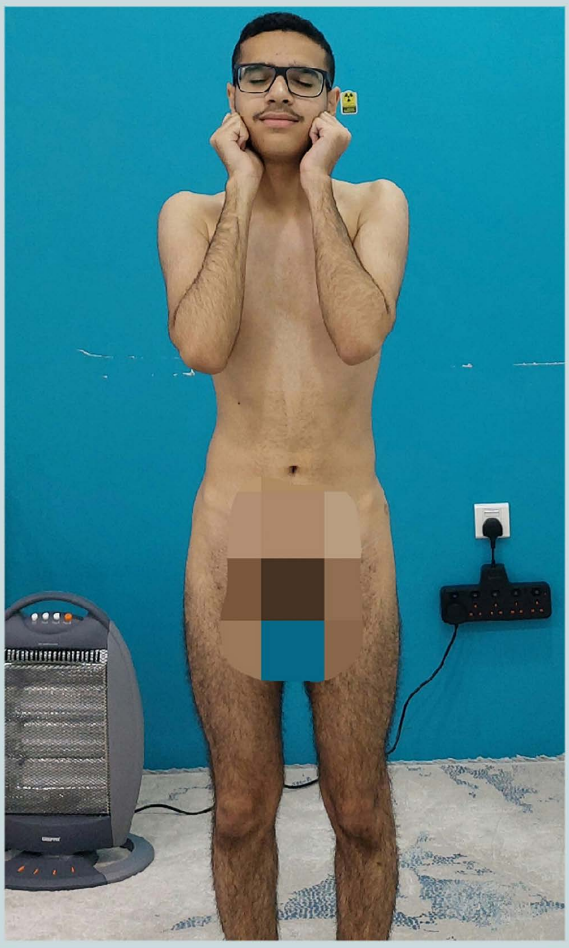


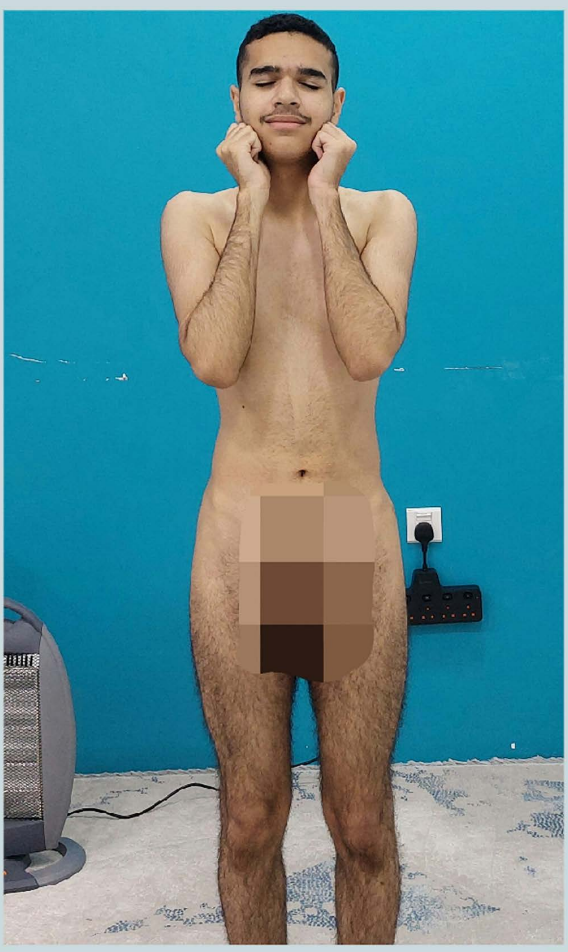


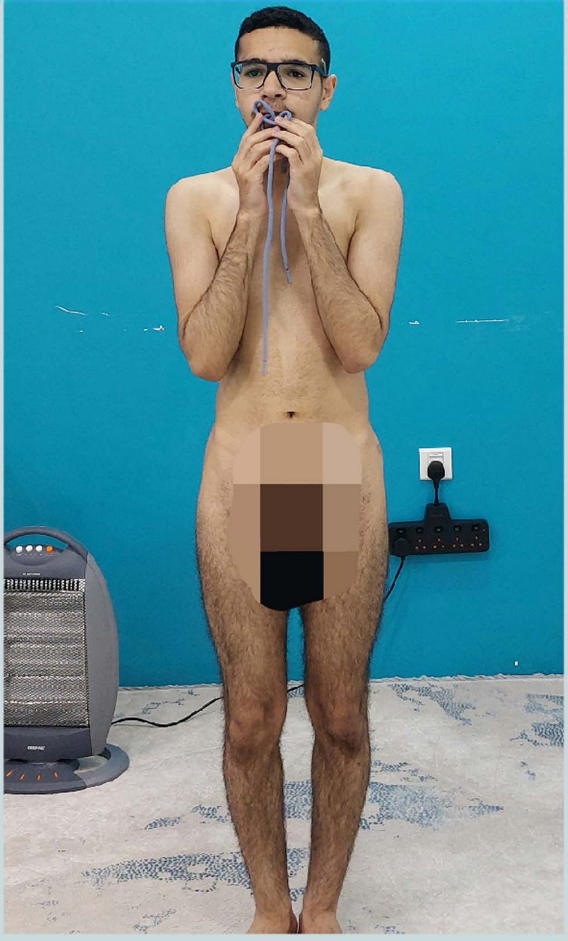


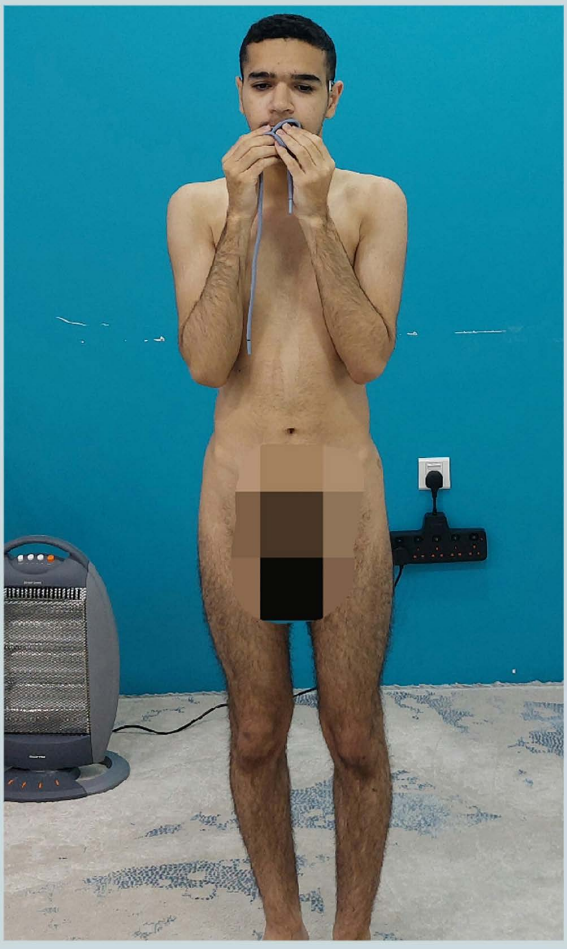








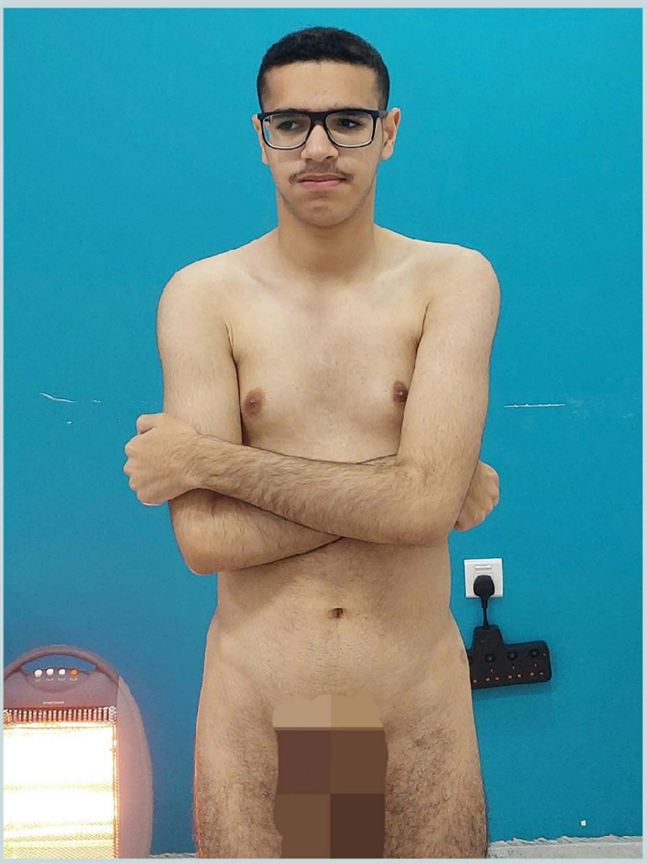




As you can see, the easiest way to tell if he is in a submissive and obedient state is to look at his

penis. If it's long [erect] and active then he is currently submissive and obedient waiting for your command.

Oh how pouty! Did you say no to his hugging/affection? You might want to try and get him back to a docile state at least. Or he might become annoying to deal with, probably with enough time, he'll return to normal behaviour giving up, not wanting to annoy his current master~.



He loves Cats! And so they converted him to be one, how does that even happen? That means he loves pretending to be one, he also loves to be on the floor.

Image of him playing. I'm not gonna lie reader something is just not right with this specific image or is it just me?

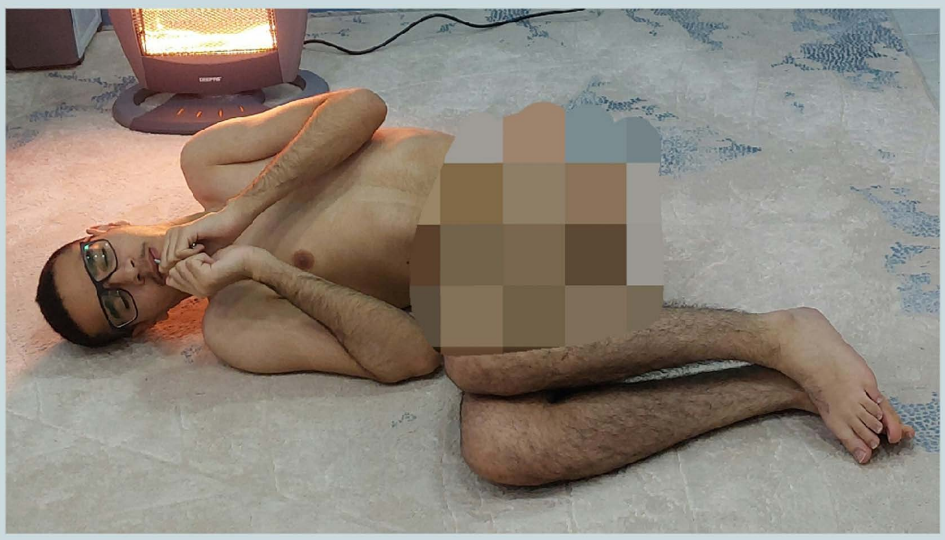


Image of him hypnotizing himself.

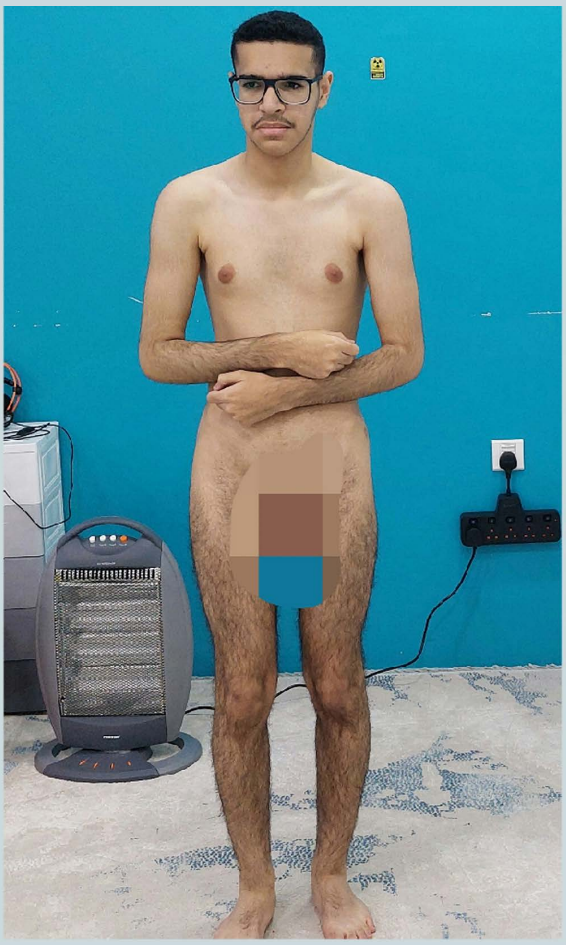
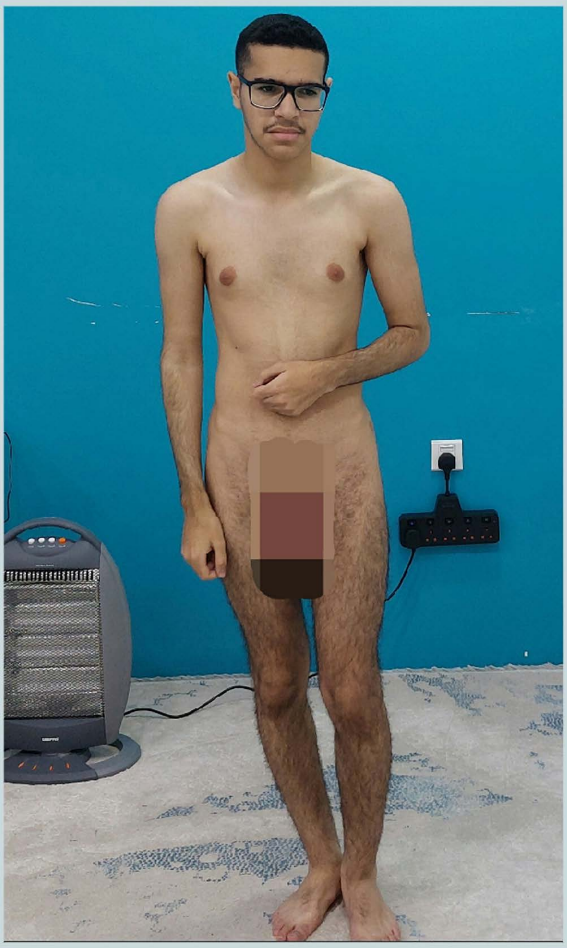
Image of him being Docile/Content.

He loves getting caressed/petted in specific areas! I'll code them down for you from, [most friendly to most wanted], He might make small pitched vocals to indicate for you that he is Enjoying your touch and attention.

Hair=💚
Ears=💚
Forehead=💚
Chin=💚
Cheeks=💛
Neck=💛
chest= ❤️ "Mmhehe~.,"
Stomach=💚 "
Penis=❤️ " I want him/her/it to touch me!!"
Mouth=[Optional]🩷 "I hope!"





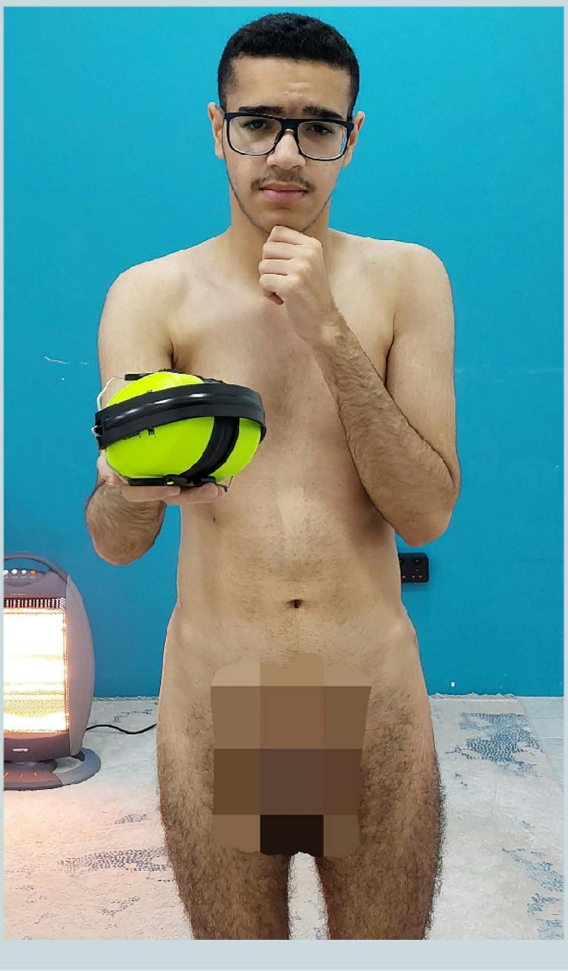
Oh. That doesn't look good, is

Dark9304590 highly stressed or having a low mentality? He might not respond to you or anyone else being silent... Only managing small talks if he chooses to.

There is some solutions to bring him back to a Nervous/shy phase to distract him from his Darkness.

1: if not too late, you can pet him normally and give him any form of spoiling care and he should attempt to calm down, unless there are some people present then this doesn't really work due to conflicted behaviour and personality, so he just stays unaffected to the care you're giving to him.

2: petting his innocent part slowly and gently, seriously he is a male, and male animals are simple you know? If that doesn't work either, than that's a very bad situation as it indicates he is being unstable and is not really conscious of himself, there is only one solution since he is in a "Empty soulless" phase.



3: Noise cancelling headphones for 3 minutes at least, Blocking the outside and silencing his brain to Peace, basically like a baby milk, this is the most effective way to make him calm down. If for any magical reason this also doesn't work or you just don't have one... ... Pray to the universe he becomes normal tomorrow while keeping an eye on his behaviour.

That's about everything you need to know on how to interact with Dark9304590, now you can keep him controlled forever! Except he

depends on the environment so that means you will lose control over him sometimes due to him going with the flow/having common sense depending on his location and who is around him.
